SMAS Accreditation

This is a nationally recognised Health & Safety accreditation used to demonstrate a business' Health & Safety standards, providing businesses with a real competitive edge when it comes to submitting tenders and/or pre-qualification questionnaires.

Benefits

- Shows customers and suppliers that your H&S is accredited to a high, independent standard.
- Gives a competitive edge in a tender or if competing with another business.
- We can help you through the whole process and save you time.

Key Questions to Ask

- How do you demonstrate to customers and suppliers that your Health & Safety is up to scratch?
- What's your competitive edge over the competition?

Atlas certified elearning

Cost-effective training solution that provides unlimited online access to 100+ CPD and RoSPA certified training modules, with exclusive First Aid, construction-specific modules.

- Offers Health & Safety training modules that includes Fire Safety Awareness and Display Screen Equipment which is a legal requirement for all employers to offer their people.
- You can send training to specific employees through the Atlas platform and see when it's completed.

- How do you develop your employees' skills so they can carry out their role effectively?
- Are you aware that we offer certified elearning courses via our online platform, Atlas?

Risk Assessment Support

One of our Health & Safety experts will give clients hands-on support with everything they need to competently complete a risk assessment from start to finish. They will assist in building and amending their risk assessment, to ensure that future copying and reviewing will become a piece of cake!

- Gives you confidence that your business' risk assessments are up-to-scratch, keeping your business, people and customers safe and compliant.
- Created risk assessments in Atlas, can easily be copied and reviewed.

- How often do you check and update your Risk Assessments and Method Statements?
- Are you comfortable checking and updating them? Have you had training?
- How do you manage any risks or hazards that crop up during the risk assessment?

Manufacturing

Risk Assessment Support

Fire Risk Assessment (FRA)

These are a legal must-have to not only keep a client compliant, but also them, their employees and business safe. We offer a BAFE standard FRA nationwide, completed by FIA trained and DBS checked assessors.

- A fully qualified assessor will carry out the audit and send you a report afterwards.
- For every significant change on site, such as installing large machinery, amending the building layout, increasing your staff etc. you need a new assessment.

- When was your last Fire Risk Assessment reviewed?
- How often do you review your fire handling equipment?

PAT & Fixed Wire Testing

Our electrical safety services ensure clients are safe from the risk of electric shock and fire hazards that can be caused by faulty electrical equipment and/or appliances.

- Not having an up to date Fixed Wire certificate could invalidate your insurance. It needs testing every 3 years in industrial settings.
- Ideally, PAT testing needs to be done yearly in industrial settings.

- When was the fixed wiring last tested in the building?
- When was your PAT testing last carried out?

Care

Best Product to Refer

Atlas certified elearning

Cost-effective training solution that provides unlimited online access to 100+ CPD and RoSPA certified training modules, with exclusive First Aid, care-specific modules.

Benefits

- Offers Health & Safety training modules that includes Fire Safety Awareness and Display Screen Equipment which is a legal requirement for all employers to offer their people.
- You can send training to specific employees through the Atlas platform and see when it's completed.

Key Questions to Ask

- Are you aware that we offer certified care specific elearning courses via our online platform Atlas?
- Do your employees undergo on-going training to ensure continuous development?

Care policies and procedures

We provide templates for residential, domiciliary and clinical care providers in England, Wales and Scotland. They have been produced by specialists with hands on experience and are updated every 4 months with any relevant legislations. Clients need to fill them in with their own details once they've received the templates.

- An easy way to be and remain compliant, as every care provider is required to have up to date policies.
- These also help with managing their people and provide adequate training.

- Where do you get your current set of policies from?
- Are your care related policies up to date and linked to current guidance and legislation?
- How often do you re-visit your policies and procedures to make sure they're still relevant?

Employee Assistance Programme

Teaming up with Bupa, this service supports our clients' employees and their families with a 24/7 helpline to answer any questions around mental health, wellbeing, financial and legal matters confidentially. Plus, access to unlimited online self-help support.

- Helps reduce absence and presenteeism, taking pressure off you as an employer.

- What do you offer to your carers by way of mental health support?
- What procedures do you have in place to manage stress in the workplace?
- Does mental health affect absences or presenteeism? If so, what do you do to tackle this?

Nursery

Employee Assistance Programme
